

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. These shapes are primarily located on the left and right sides of the page, framing the central white area.

Green School

By Benedetta Quadrelli

How can a green school be?

- ▶ there must be plastic reduction
- ▶ energy should be produced by solar panels
- ▶ there should be more green spaces (obviously there is talk for some schools that do not have "parks inside")
- ▶ be more attentive to CO₂ consumption
- ▶ you have to be more careful to make the differentiated

Why a school should be green?

schools should be green because they waste a lot and this is not good, that's why we have to take action.

for example a normal school for the canteen uses plastic cups, and they are an absurd waste ...

schools use a lot of energy and this is always an absurd waste and this is not good for our ecosystem that's why schools should be green

We have to protect it

The end
