

GREEN PEACE

Greenpeace exists because this fragile earth deserves a voice. It needs solutions. It needs change. It needs action.

What is greenpeace ?

- ▶ Greenpeace is an independent, campaigning organization which uses non-violent, creative confrontation to expose global environmental problems, and to force solutions for a green and peaceful future

GREENPEACE

- ▶ It is one of the world most known charities and also one of the most effective ways to protect our planet

WHO CREATED GREEN PEACE AND WHY ?

- ▶ Phil Cotes, Irving Stowe, and Jim Bohlen **founded Greenpeace** in 1970.
- ▶ to protest underground nuclear testing by the US military at Amchitka, a tiny volcanic island off western Alaska. Though they were eventually stopped, these activists went on to create an organization called **Greenpeace**, with the belief that individual, non-violent action can create positive change.

SEA

- ▶ One of Greenpeace's priority's is the sea.
- ▶ The main cause that they are fighting against is whale hunting, but as the government doesn't really help them (because they earn a lot of money from it) it's a pretty hard battle to fight
- ▶ From fishing nets and oil spills to climate change and plastic pollution - the threats facing turtles and other sea creatures are getting worse every day.

The image features a hypnotic spiral background composed of concentric circles in shades of red and black. The spiral starts from a central black circle and expands outwards. Overlaid on this background is the text "The End" in a white, elegant cursive font. The text is centered horizontally and vertically within the spiral.
