

PREAMBLE

1. This Memorandum replaces all previous ones.
2. This → [video](#) ← shows how we have prepared to welcome the school community.
3. The responsibility and the cooperation of everyone is necessary:
 - ⇒ In promoting awareness and respect for the anti-Covid rules, the School underlines the value of vaccination, both in terms of preventing contagion and specifically protecting the health of the most vulnerable people, and as a means of fully returning to social life and, in particular, to normal school life.
The basic rules are: social distancing and mask wearing, ventilation of rooms, frequent hand washing or disinfecting.
 - ⇒ The legal guardians are asked to explain in a positive way the situation that the pupils find at school in view of what is written in this Memorandum, to take the pupils' temperature daily before sending them to school and to inform the Medical Service promptly in case of absence due to illness or positive swab.
Please use the following e-mail addresses to report absences:
Nursery and Primary cycle → VAR-ASSENZE-MP@eursc.eu
Secondary cycle S1, S2, S3 → VAR-assenze-S123@eursc.eu
Secondary cycle S4, S5 → VAR-assenze-S45@eursc.eu
Secondary cycle S6, S7 → VAR-assenze-S67@eursc.eu
Finally, they are asked to verify their data in SMS and send any changes to the relevant school cycle secretaries: it is absolutely necessary to be able to trace the legal guardian in case of emergency.
 - ⇒ The School's Staff is asked to keep in mind the rules contained in this Memorandum and the hygiene behaviour rules prepared by the School Medical Service and available on the School's website, to set a good example, to ensure that everyone respects them and to promptly inform the Medical Service in case of absence due to illness or positive swab.
 - ⇒ Pupils are asked to "be pupils" ... taking the pandemic situation seriously even when they are out of School.
4. According to the official documents in force at the date of this Memorandum¹, the School Management -after consulting the various members of the School community- has drawn up this Memorandum containing the rules of conduct to be adopted for the protection of the health of all of us.

ENTRANCE TO SCHOOL

1. Whoever has a temperature >37.5° (pupils, teaching and non-teaching staff, suppliers, ...) is obliged to stay at home and to inform their family doctor or the local health authority (<https://www.ats-insubria.it/>).
2. Everyone (pupils, teaching and non-teaching staff, suppliers ...) must arrive at the School with a mask (it is recommended to have a backup mask).
3. Pupils of the Nursery cycle enter from the blue gate (only those arriving by buses) or from Via Montello (Nursery building). It is forbidden to bring toys from home.
Pupils of the Primary cycle enter from the blue gate (only those arriving by buses) or from Via Montello (pedestrian gate).

¹ "Documento per la pianificazione delle attività scolastiche, educative e formative in tutte le Istituzioni del Sistema nazionale di Istruzione per l'anno scolastico 2021/2022" PIANO SCUOLA 2021/2022 – Ministry of Education. Laws on pandemic prevention.

All students of the Secondary cycle enter through the blue gate of Via Mameli where there will be staff from the School to welcome the students.

The opening of buses' doors will be managed in order to stagger pupils' entrances, also taking into account students arriving by other means.

4. Maximum cooperation is required in order to avoid gatherings outside the School by pupils and their legal guardians.

It is also recommended to park in the forecourt of Via Romans sur l'Isère (and adjacent streets).

5. In general:

- Legal guardians are not allowed to enter the school.
- Parent-teacher consultations are performed through Microsoft Teams.

6. All other visitors (e.g. suppliers and shipping agents) have their fever measured and their personal data recorded.

SCHOOL DAY

1. Use of the mask:

⇒ The obligation to use surgical masks (or masks with a higher protective effect) remains, except for children up to six years of age and people with pathologies or disabilities that are incompatible with the use of masks.

⇒ The mask should be worn in indoor areas (until 30/04/2022), where it is not possible to observe the distance, on means of transport and on school transport (FFP2 type until 30/04/2022).

⇒ The mask does not need to be worn during sports activities.

2. Common spaces:

⇒ It is recommended that the interpersonal safety distance of at least one meter be respected, unless the structural and logistical conditions of the buildings do not allow this.

⇒ Special signs indicate the routes to be followed and the distances to be respected. Automatic gel dispensers are available in the corridors of the School (and gel dispensers in the classrooms).

⇒ Distancing is also maintained inside the canteen and in the entrance queues. The access to the canteen is carried out wearing a mask and after using gel or washing your hands. The staff will give the necessary instructions.

⇒ Signage and dedicated staff are no substitute for the attention and responsibility of the individual. Therefore, maximum collaboration is required in order to avoid gatherings by pupils and staff in the areas where drinks and snacks are distributed (once the product has been purchased, it is necessary to move away from the area).

3. At the end of each hour/period the classroom must be ventilated and the bathrooms' windows must remain always open if possible.

4. Exit permits during the school day:

⇒ A request by email from the legal guardians is required for each exit from school during the school day. The request must specify the reason why it is made and must arrive at least the day before at the Primary cycle secretary's office or to the respective Secondary school Pedagogical advisor.

⇒ The School authorises the exit by replying to the legal guardians by email and copying the Via Mameli guard.

- ⇒ Pupils under the age of 18 are not allowed to leave the school during the normal school day unless a legal guardian (or his/her delegate of legal age to be mentioned in the request) picks them up from the gates where it is required to show proof of identity.
 - ⇒ Pupils who leave school may not return unless the exit has been requested for a medical examination which needs to be certified.
5. Educational outings and trips, including participation in sporting events, are possible.
 6. Each symptomatic person must be accompanied to the infirmary where isolation and all the procedures provided for by current regulations are carried out (the Medical Service establishes internal protocols available on the School's website).
It is recommended to notify the infirmary before accompanying a symptomatic individual.
 7. At the end of the school day, cleaning is carried out as prescribed by the current regulations.

EXIT FROM SCHOOL

1. Pupils of the Nursery cycle who do not use buses exit from Via Montello (Nursery building). Pupils of the Primary cycle who do not use buses exit from Via Montello (pedestrian gate). All students of the Secondary cycle exit from the blue gate of Via Mameli.
The exit from the School is organized in order to stagger the flow of pupils towards the exits with the support of dedicated staff:
 - ⇒ Firstly, the pupils of the Secondary cycle gymnasium go out together with those of the Nursery cycle and the top floor of the Da Vinci building; then the pupils of the following floors.
 - ⇒ Then the pupils of the Erasmus building always per floor.
 - ⇒ Finally, the pupils of the Primary cycle (first those farthest from the blue gate).It is the teachers' responsibility to send all the pupils of the Nursery and Primary cycles to the bathroom before leaving school.
2. Before entering the bus, the accompanying person takes the temperatures: if a pupil has a temperature $>37.5^{\circ}$, he or she is taken to the infirmary where isolation is provided and the parents must come and pick him/her up urgently.
3. Maximum cooperation is required in order to avoid gatherings outside the School both by the legal guardians and by the pupils.
It is also recommended to park in the forecourt of Via Romans sur l'Isère (and adjacent streets).

FURTHER INFORMATION

1. **COVID-19 Green Pass and compulsory "anti-COVID" vaccination**
 - ⇒ COVID-19 Green Pass² is a digital and printable (paper) certification, which contains a two-dimensional barcode (QR Code) and a qualified electronic seal.
Except for students, until 30/04/2022 all persons entering school buildings must have and show their Green Pass (the control procedures and the delegation issued by the School Director are annexed).
In cases established by the Ministry of Health³ in which the SARS-CoV-2 vaccination is omitted or postponed due to specific and documented clinical conditions, a

² <https://www.dgc.gov.it/web/>

³ <https://www.dgc.gov.it/web/faq.html#essenzi>

Certificate of exemption from vaccination is issued in place of the COVID-19 Green Pass.

- ⇒ Until 15/06/2022, the compulsory "anti-COVID" vaccination applies to all school staff. Vaccination is an essential requirement for carrying out teaching activities in contact with pupils. In the event of non-compliance with the vaccination requirement, non-compliant teaching and educational staff will be used in support activities for the school (therefore they will not go to class).

2. Distance learning.

- ⇒ Only pupils in isolation due to Covid infection may attend school in the distance teaching/digital teaching mode (DLT) at the request of their legal guardians (or the pupil who has reached the age of majority), **accompanied by specific medical certification attesting to the pupil's state of health and their full compatibility with participation in the DLT.** Readmission to class is subject only to proof of having carried out a rapid antigenic or molecular test with a negative result.
- ⇒ The provisions of Article 26a of the General Rules of the European Schools remains in force.

3. Absences and medical certificate

Pupils who are not present at school or who do not participate in distance learning when they are entitled to do so are considered absent.

In the case of absence due to illness (not due to Covid-19), no medical certificate/attestation is required for return to school (the obligation to justify any absence remains).

- ⇒ The School (through the Medical Service) reserves the right to request a medical certificate/attestation declaring illness after absence due to illness of more than:
- 3 days for the nursery cycle;
 - 5 days for the primary and secondary cycles.

The Covid rules for returning to school after quarantine remain unchanged.

4. Procedure for "positive case"

In order to ensure effective communication and avoid disseminating sensitive health data, information regarding positive cases relating to the school community (pupils, teaching and non-teaching staff and family members) should not be sent to teachers and/or parents and/or pupils, but to:

the Medical Service .. → VAR-MEDCENTRE@eursc.eu

and/or to

the Management → VAR-DIRECTOR@eursc.eu;
VAR-DEPUTY-DIRECTOR-SECONDARY-CYCLE@eursc.eu;
VAR-DEPUTY-DIRECTOR-NURSERY-AND-PRIMARY-CYCLE@eursc.eu;
VAR-DEPUTY-DIRECTOR-FINANCE-AND-ADMINISTRATION@eursc.eu

If the virus-positive pupil uses Cooperative Transport buses, legal guardians must also inform the Cooperative (covid_trasporti@eursc.onmicrosoft.com).

In the presence of at least four positive cases among pupils in the same class, activities continue in the presence with FFP2 masks for teachers and pupils over six years of age for ten days after the last contact with the positive person.

If symptoms appear, an antigen test (rapid or self-administered) or molecular test is mandatory. If still symptomatic, the test should be repeated on the fifth day following the date of last contact. In this case, a negative test result is attested by self-certification.

For the return to school:

- ✓ Follow the procedures of the Medical Service

<https://www.eurscva.eu/en/home/services/medical-service/>

- ✓ For any further clarification please write to VAR-MEDCENTRE@eursc.eu.
All close contacts (vaccinated or unvaccinated) of a positive person are under self-monitoring and are required to wear FFP2 masks for 10 days following contact.

5. Trips during holidays and weekends

In the case of trips abroad, it is advisable to check the website <http://www.viaggiasesicuri.it/>, which is updated with any change in Italian government regulations. This website also contains the Italian regulations to be respected in case of return from abroad.

It is required to plan returns from trips in order to be present at school.

6. Psychological support

It is provided for school staff and pupils to face situations of insecurity, stress, anxiety due to excessive responsibility and return to work "in presence", ...

For any request, please contact the School Management.

7. Health surveillance and monitoring

Please consult the School's website www.eurscva.eu and the area relating to the protocols prepared by the Medical Service <https://www.eurscva.eu/en/home/services/medical-service/>.

The Competent Doctor and the person in charge of the Prevention and Protection Service collaborate with the School Management to guarantee the health surveillance according to the reference regulations.

The "Safety and Security Committee" monitors the provisions of this Memorandum.

8. Canteen and transport services

The Canteen Cooperative and the Transport Cooperative will send to their members any further information (via email or on their websites).

Should the Board of Governors or the competent Italian authorities take new decisions, this Memorandum will be updated accordingly and we will disseminate it.

The School Management

GREEN PASS CONTROL PROCEDURE

1. Except for pupils, access to the School premises requires a valid digital or paper Green Pass.
2. The School Director has formally delegated the "*PERSONS IN CHARGE*" of controlling the Green Pass (document attached).
 - The verification process takes place before entering the School premises and via the official "VerificaC19" App downloaded onto a mobile device.
 - For Staff members, the person in charge will tick the check made on a table sent daily to the Medical Service (at the end of the day all lists are destroyed); checks may also be made on a random basis during the school day.
 - The person in charge cannot make copies of the Green Pass, disclose, retain or use in any way the data of the persons subject to the check nor claim any further information or data.
 - In case of disputes/refusals to show the Green Pass, suspected falsity/invalidity, or any other infringement deemed serious, the School reserves the right to call in the Police or Carabinieri and, for Personnel, to apply the sanctions provided for by the respective Service Regulations.
3. In the morning (**from 07:45 to 08:40**) there are two points where each member of staff must go to show their Green Pass before entering the school premises (after parking their car):
 - In the external atrium of the Villa.
 - In the external atrium under the canteen (Da Vinci building).
4. **After 08:40** anyone entering the School must show their Green Pass to the guards (either in Via Mameli or Via Montello). Staff may enter and park their cars but must then go to the guard (or another delegate for control but outside the School premises).

Thank you for your attention.

The School Director
Ariane FARINELLE

SCUOLA EUROPEA di VARESE
